

City of Pullman Public Works Dept.  
Engineering Division  
Records Section  
All drawings are in AutoCAD format.

All of the standard drawings contained herein  
rely on at least one other drawing to be complete.

Therefore, when downloading, it is best to download  
all of the files into the same directory on your  
computer.

The "other" drawings include:

Std-Dwg.dwg (This is the X-reffed title block)  
Any \*.xlg drawings that may be added in future

As time permits, popular drawings will be added in PDF  
and/or WMF format for more flexibility.
